

ZOYSIA FOR GREENS

GREENS GRASS VARIETIES DEVELOPED BY BLADERUNNER FARMS,
THE ZOYSIAGRASS EXPERTS

Decades of research and development created a breakthrough in the advancement of zoysiagrass varieties for golf course greens. Greens grassed with these new varieties benefit from all of the sustainability features of zoysiagrass (low fertility, salt tolerance, shade tolerance), with the playability and speed required of championship quality greens. Stimp measurements of 9 to 14 feet make zoysia for greens the new reality for golf course design and management.

**BLADERUNNER FARMS IS THE
WORLD'S LARGEST PRIVATELY
OWNED ZOYSIAGRASS
RESEARCH FACILITY.**
